

Evidence — Lab 03: A Compliance Subagent, Then Publish

Multi AI Agents Workflow for Content Creation · Day 1 · Codex → GitHub Pages

Capture a screenshot or file for each line. Evidence beats a description.

- ☐ The reviewer ran as a subagent and edited nothing.
- ☐ The first report flagged the "8% ... guaranteed" line as Critical (C2, C5).
- ☐ The final report says PASS.
- ☐ The footer disclaimer and calculator note are word for word.
- ☐ Codex listed the files before committing; no secret among them.
- ☐ The Pages URL works on your phone.

Notes

What did not work first time, and what you changed:

What you did NOT verify:
