DOCUMENT VERSION CONTROL RECORD

Version Number	Effective Date of Release	Summary of Included Changes	Author
1.0	13 Sep 2026	Multi-agent content strategy courseware aligned to the current course page and TSC; GreenLeaf Café case; 12 labs.	Tertiary Infotech Academy
2.0	8 Oct 2026	Revamped in the house design of the Agentic AI Applications with Codex course. One central case — Horizon Wealth Planning, a Singapore financial-planning firm — across 14 labs, each in its own folder: Claude Cowork sub-agents (research, ideation, personas, cadence, skills, measurement), Codex (website, compliance subagent, approval gate, video), Claude Code subagents and agent teams (social, newsletter and video teams with LinkedIn, Facebook and YouTube publishing behind a human approval gate) and Hermes Agent bots on a Kanban board. Practice Exam slide (Claude Certified Associate — Foundations). WA (6 SAQ, K1-K6) and PP (4 tasks, A1-A7) rewritten for the v2.0 labs; assessment 4:00-6:00 PM Day 2 (WA 1 h, PP 1 h).	Dr. Alfred Ang
2.1	8 Oct 2026	Two Claude tools only: Claude (Chat and Cowork are one product) and Claude Code, which replaces Codex for the website, compliance subagent, approval gate and video. The website is published and shared as a Claude artifact instead of GitHub Pages. New slides: Claude plans and pricing; the agentic loop, why it matters and the loop in action; permission modes; publishing a Claude artifact. Topic 4 runs a scheduled weekly brief in Claude (Lab 12) and the playbook (Lab 13); Hermes Agent becomes an optional demo at the end (Lab 14). PP Task 4 updated to the Topic 4 labs.	Dr. Alfred Ang
3.0	8 Oct 2026	Two editions from one source — Claude and ChatGPT — each with its own deck, Lesson Plan, Learner Guide, labs and assessment. Rebuilt around an AI marketing team: a Marketing Team Lead and five specialists (Growth Strategist, Content Creator, Creative Designer, Website Designer, Growth Analyst), each with instructions, two skills and its own connectors. The team runs five campaigns: research to storyboard, a social week, newsletter and landing page, a YouTube explainer and an always-on weekly report. ChatGPT edition: role skills, plugins and Codex subagents (works on Plus and Pro); the website on Sites; optional Dot and workspace agents demo. 13 labs.	Dr. Alfred Ang
3.2	9 Oct 2026	Horizon's website is given, not built: Lab 1 now opens one public link (the public site) with a GitHub Pages backup for learners who cannot open artifacts or Sites, and adds the link to the team charter. The website links are printed and clickable on the scenario slide; the Practice Exam slide links to the exam. Lab 4 checks the public site; broken site URLs fixed.	Dr. Alfred Ang
3.3	9 Oct 2026	Skills widened for content creation: twenty skills,	Dr. Alfred Ang

		adding content-marketing, copywriting, linkedin-post, facebook-post, blog-post, newsletter, web-design and lead-magnet, used in Labs 5 and 8–11. Lab 4 connects every tool the labs use (Google Drive, Gmail, Google Calendar); no plugin changes.	
3.4	10 Oct 2026	Version aligned with the Claude Edition; no content changes.	Dr. Alfred Ang
3.5	10 Oct 2026	Plain-English results with a Word copy of each, follow-up questions for every lab from Lab 5, and a Prompts page with a Copy button. Lab 8 is one quick-blog prompt; Lab 9 makes the checklist as a PDF (Canva removed); Lab 10 is a two-post demo (40 min; Lab 9 40 min). Horizon's website gains a blog.	Dr. Alfred Ang
3.6	11 Oct 2026	Posts link to each learner's own website at http://localhost:8080; Lab 10 starts with "Get the latest kit" and gains an optional section for posting through LinkedIn and Facebook; the publisher kit posts each post's image.	Dr. Alfred Ang
3.7	11 Oct 2026	Final clean-up and alignment with the Claude Edition. Every lab file, including the publisher kit, ships in horizon-studio from Lab 1, so Lab 10 no longer starts with "Get the latest kit" (its prompts are now A and B) and Lab 13 reads the data Lab 4 put on Google Drive. Lab 15 is now hands-on, as in the Claude Edition: a strategy debate and a QA loop with Codex subagents and a relaying Lead (30 min; the summary 15:45-16:00). The overview has five slides (the OpenAI suite, ChatGPT, Codex, Dots and workspace agents, plans), and Topic 3 adds "Which pattern when?".	Dr. Alfred Ang

Course Overview

A two-day, hands-on WSQ course in content strategy with multi-agent AI workflows. Learners take one business — Horizon Wealth Planning, an independent financial-planning firm in Singapore with a website and no marketing team — and build it an AI marketing team: a Marketing Team Lead and five specialists (Growth Strategist, Content Creator, Creative Designer, Website Designer, Growth Analyst), each with instructions, skills and connectors. Day 1 forms the team and runs its first campaign; Day 2 runs a social week, a newsletter with a landing page, a YouTube explainer and an always-on weekly report, with a person approving every external piece. This ChatGPT Edition uses role skills and plugins, Codex subagents with the Lead's review, ChatGPT Work scheduled tasks and @Sites; it runs on Plus and Pro.
