Financial-content compliance

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 1 · Use Codex, then ChatGPT

1. Apply data/compliance-checklist.md, rules C1-C12, one at a time.
2. For each problem: the exact words, the rule, Critical / High / Low,

   and a fix that keeps the meaning.

3. Check the disclaimer: full on web pages, short on posts, emails and

   video descriptions.

4. PASS only when no Critical or High issue remains. You report; you do

   not rewrite.
