Prompts — Lab 07: Growth Analyst and Strategist: Cadence and Calendar

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 1 · Use Codex

Use: Codex — Codex, in your horizon-studio folder. Paste each prompt as written; change only what the lab tells you to.

Easiest: copy each prompt from https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/chatgpt/#lab-7 (one Copy button per prompt).

PROMPT A — Codex: the analyst

```
Use the growth-analyst subagent. From
data/channel-benchmarks.csv and
data/team-capacity.md, recommend how often to
publish on LinkedIn, Facebook, the newsletter and
YouTube. Compare the extra clicks from one more
post, the unfollows or unsubscribes it costs, and
the hours → strategy/cadence.md. Show the numbers.
Write for a business owner, in plain English: no
codes, IDs, file names or line numbers; start with
what it means and what I do next. Save a Word copy
(.docx) of each result.
```

PROMPT B — Codex: the strategist

```
Use the growth-strategist subagent to build a
four-week calendar from Monday 2 November 2026 in
strategy/calendar.csv (columns as
data/calendar-format.csv), from the cadence,
strategy/storyboard.md and strategy/content-spec.md.
review_by two business days before each date; no
public holidays; no week over the team's hours.
Show a week-by-week summary with hours.
Write for a business owner, in plain English: no
codes, IDs, file names or line numbers; start with
what it means and what I do next. Save a Word copy
(.docx) of each result.
```

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "Why is the newsletter not weekly? Show me the numbers."
- "What happens if we add a third LinkedIn post a week?"
- "Which week is busiest, and does the team have the hours?"
