Lab 08 — Content Creator: A Quick Blog Article

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 1 · Use ChatGPT

> **USE: CHATGPT** — the ChatGPT desktop app

Course: Multi AI Agents Workflow for Content Creation (ChatGPT Edition) (TGS-2023036153)

Day 1 · Topic 2 · about 40 minutes · slides 93–97

Surface: ChatGPT (web search, your Horizon skills)

Features: one prompt runs the whole job: research · draft · fact-check and fin-compliance · fix · a person reads it last

> **Copy the prompts:** https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/chatgpt/#lab-8 — click **Copy** next to each prompt, then paste it into the chat.

The story so far

Jun Wei has the storyboard and the personas. Rachel wants the first real piece today: a blog article that people searching for CPF top-ups will find — and that every post can link to.

Your goal

The storyboard is the plan; now make the first piece, fast. A blog article is the hub every post, email and video links to — and one prompt can take it from research to a checked post.

You'll build

a 500-700-word blog article with dated sources, checked and fixed, with a Word copy

What is in this folder

> **.md or .pdf?** A `.md` file (Markdown) is plain text that Codex reads. Every `.md` here has a `.pdf` twin with the same name — open the PDF to read it yourself.

- `assets/facts-2026.md`
- `assets/brand.md`
- `prompts.md` / `prompts.pdf` — every prompt, ready to paste
- `evidence/checklist.md` / `checklist.pdf` — what to capture as proof

Step by step

1. **New session** — Start a new chat in the Horizon Marketing project and name it "Lab 8". Run all of this lab's prompts in it.

2. **Bring the skills** — Use @skill-creator to add blog-post and fact-check to ChatGPT (sunny-voice and fin-compliance came in Lab 3).
3. **Write it** — Copy and paste the prompt. ChatGPT researches, writes, checks and fixes the article.
4. **Read it** — Read the article and the list of fixes. Say what to change, if anything.

The prompts

PROMPT — ChatGPT: a quick blog

> Write a quick blog article for Horizon with the blog-post, sunny-voice, fact-check and fin-compliance skills.
> 1. Pick one topic from strategy/storyboard.md (upload it) that a Singaporean would search for. Search the web for two current sources (CPF Board, MAS or MoneySense), each with its date.
> 2. Write 500-700 words: a title under 60 characters, every figure from facts-2026.md, one call to action (book a free 30-minute chat) and the full disclaimer.
> 3. Run fact-check and fin-compliance; fix every issue and list each fix in one line.
> Write for a business owner, in plain English. Save a Word copy (.docx) of the article.

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "Summarise the article in three sentences. Who is it for?"
- "Why did you pick this topic, and who will search for it?"
- "What did the checks find, and how did you fix it?"

Check your work

- □ Two sources, each with a date and a link.
- □ The title is under 60 characters.
- □ Every figure is from Horizon's 2026 facts.
- □ The fixes are listed; no Critical or High issue is left.
- □ One call to action and the full disclaimer at the end.

If it goes wrong

- **No sources with dates** — Say: "only sources that show a date; otherwise say UNKNOWN".

Stretch

- Ask for two LinkedIn posts and one Facebook post that link to the article, with linkedin-post and facebook-post.

> **Why it matters:** One prompt can run the whole job — research, writing and checks. A person still reads the result before it goes anywhere.

Next

Lab 9 — The Lead Magnet: a Checklist and Its Welcome Emails. Keep what you built — the next lab starts from it.

Safety

Use only this lab's synthetic data and your own accounts. Never paste a real API key, password, token or client data into a prompt or a file — tokens live only in .env. Every email address in the data must resolve to your own inbox. Nothing is published or sent without a person approving that exact version.
