Prompts — Lab 11: Campaign 3: Newsletter and a Landing Page

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 2 · Use Codex, then ChatGPT Work

Use: Codex, then ChatGPT Work — start in Codex; the step that moves you to ChatGPT Work says so. Paste each prompt as written; change only what the lab tells you to.

Easiest: copy each prompt from https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/chatgpt/#lab-11 (one Copy button per prompt).

PROMPT A — Codex: the newsletter team

```
You are the Lead for the November Sunny Sunday
email (data/newsletter-brief.md,
data/newsletter-spec.md) and its landing page
(data/landing-page-brief.md). Use subagents:
- content-creator: issue.md (id nl-2026-11) with
  newsletter, and the landing-page copy.
- website-designer: web/checklist/index.html with
  lead-magnet, web-design and landing-page; page-qa.
- growth-analyst: recipients.csv and excluded.csv
  from data/subscribers.csv.
Check everything, then submit nl-2026-11. After I
approve, build newsletter.html and .txt, and deploy
web/checklist with @Sites (Only those invited).
Write for a business owner, in plain English: no
codes, IDs, file names or line numbers; start with
what it means and what I do next. Save a Word copy
(.docx) of each result.
```

PROMPT B — ChatGPT Work: Gmail drafts

```
Using @Gmail, create a DRAFT of the newsletter in
content/newsletter/2026-11/newsletter.html (upload
it) for each address in recipients.csv, plus one
draft to me only. Send nothing. Report how many
drafts and how many people were excluded, and why.
```

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "Explain the email in three sentences. What do we want readers to do?"
- "Who was left off the mailing list, and why?"
- "What did the landing-page check look at, and did it pass?"
