Lab 13 — Campaign 5: Always On — the Weekly Growth Report

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 2 · Use ChatGPT Work

> **USE: CHATGPT WORK** — ChatGPT Work

Course: Multi AI Agents Workflow for Content Creation (ChatGPT Edition) (TGS-2023036153)

Day 2 · Topic 4 · about 35 minutes · slides 140–144

Surface: ChatGPT Work (skill, scheduled task, @Drive, @Gmail)

Features: the Growth Analyst's campaign-report skill · do · verify · schedule · draft-only delivery

> **Copy the prompts:** https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/chatgpt/#lab-13 — click **Copy** next to each prompt, then paste it into the chat.

The story so far

The team must keep working after class. Rachel wants the Growth Analyst's report in her inbox every Monday — as a draft she decides on.

Your goal

The team should keep working when class ends. Every Monday the Growth Analyst's report lands in Rachel's inbox as a draft — the decision stays with a person.

You'll build

a scheduled task that drafts the weekly growth report every Monday at 8am, and one draft in Gmail

What is in this folder

> **.md or .pdf?** A `.md` file (Markdown) is plain text that Codex reads. Every `.md` here has a `.pdf` twin with the same name — open the PDF to read it yourself.

- `assets/campaign-results.csv`
- `assets/weekly-report-brief.md`
- `assets/scheduled-task-instructions.md`
- `prompts.md` / `prompts.pdf` — every prompt, ready to paste
- `evidence/checklist.md` / `checklist.pdf` — what to capture as proof

Step by step

1. **New session** — Start a new ChatGPT Work chat and name it "Lab 13". Run all of this lab's prompts in it.
2. **Bring the skill** — Use @skill-creator to add campaign-report to ChatGPT.
3. **Do it once** — Copy and paste Prompt A. Refine the report until it is right.
4. **Schedule it** — After the report is right, copy and paste Prompt B. Runs appear in Scheduled.
5. **Run it now** — Run the task once and open the Gmail draft.
6. **Pause it** — After class, pause the scheduled task.

The prompts

PROMPTS A and B — ChatGPT Work

> PROMPT A
> Act as Horizon's Growth Analyst. Using @Google Drive, read campaign-results.csv in the Horizon Studio folder. Use the campaign-report skill and weekly-report-brief.md. Leave the report as a @Gmail DRAFT to me, subject "Horizon weekly growth report" and today's date. Send nothing.
>
> PROMPT B
> Do this every Monday at 8am, as a scheduled task. Draft only — never send, publish or approve anything.

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "What is the one decision this report asks me to make?"
- "Which channel gets us a chat most cheaply, and how sure are you?"
- "What would you change in next month's budget, and why?"

Check your work

- □ The campaign-report skill is available in ChatGPT.
- □ The report names the cheapest channel per chat (the newsletter).
- □ It recommends a budget split with a reason per channel.
- □ A scheduled task runs Mondays at 8am with draft-only instructions.
- □ A manual run left a draft — nothing was sent.
- □ The task is paused after class.

If it goes wrong

- **It sent the email** — Write "draft only — never send" in both the skill and the task instructions.

- **campaign-results.csv is not on Drive** — It went to the Horizon Studio folder in Lab 4. Open drive.google.com, open Horizon Studio → New → File upload, and choose it from your data/ folder.

Stretch

- Add a Friday 5pm task from the Lead: what was published and what is still pending.

> **Why it matters:** Automate the preparation, not the decision. The schedule fills an inbox; a person still decides.

Next

Lab 14 — Measure, Govern and Write the Team Playbook. Keep what you built — the next lab starts from it.

Safety

Use only this lab's synthetic data and your own accounts. Never paste a real API key, password, token or client data into a prompt or a file — tokens live only in .env. Every email address in the data must resolve to your own inbox. Nothing is published or sent without a person approving that exact version.
