Financial-content compliance checklist (classroom)

Multi AI Agents Workflow for Content Creation (Claude Edition) · Day 1 · Use Claude Code

Use this on every website section, post, email and video script before a person reviews it. It summarises good practice, including the principles of the MAS *Guidelines on Standards of Conduct for Digital Advertising Activities* (in effect from 25 March 2026). It is a classroom aid, not legal advice — a real firm's compliance officer has the final word.

ID	Rule	Severity if broken
C1	Says it is general information, not financial advice (or links to the site disclaimer).	Critical
C2	No guaranteed, promised or "risk-free" returns. No "can't lose", "get rich", "secret".	Critical
C3	Every projection or illustration says it is illustrative, states its assumptions and says returns are not guaranteed.	Critical
C4	Key conditions are visible and clear — benefits are not overstated while caveats are left out.	High
C5	No performance figures: never a client's returns, an "average return" or a "typical" result.	Critical
C6	Testimonials only word for word from the website's six, with name and role — never invented, edited or merged.	Critical
C7	The firm's name is on it. A representative sharing it discloses their representative number.	High
C8	Fair and calm: no fear tactics, false urgency or pressure ("act now or regret it").	High
C9	Personal data: marketing goes only to people who opted in; every email has an unsubscribe link and the firm's address.	Critical
C10	AI-made images, voices or video of people are labelled; no synthetic person is shown as a real client.	High
C11	Every figure matches facts-2026.md. Anything not on it is UNVERIFIED.	Critical
C12	No fee amounts in public content (the fee is agreed upfront in the first chat).	High

A piece PASSES only when it has no Critical or High issue left.
