Horizon Wealth Planning — AI marketing team charter

Multi AI Agents Workflow for Content Creation (Claude Edition) · Day 1 · Use Claude Code

Goal: 40 booked free chats a month by March 2027.

Rule zero: nothing reaches a customer unless a person approved that

exact version.

The team

Agent	Job
Marketing Team Lead	Plans, assigns, combines, checks, hands to a person
Growth Strategist	Finds who to reach and why: market and competitor research, positioning, the campaign brief, ideas and the storyboard.
Content Creator	Writes every word Horizon publishes: posts, the newsletter, video scripts and page copy, in the Sunny voice.
Creative Designer	Makes the visuals: social images, carousels, thumbnails, the video storyboard frames and the rendered video.
Website Designer	Owns Horizon's web presence: campaign landing pages, the lead-magnet page and page QA, published as Claude artifacts.
Growth Analyst	Turns data into decisions: personas from evidence, cadence, campaign results, cost per chat and the weekly growth report.

How we work

- The Lead is the main Claude Code session. Specialists are subagents in .claude/agents/; for collaborative campaigns the Lead runs them as an agent team.
- Skills live in .claude/skills/. Connectors come from your desktop app (Customize → Connectors).
- Every number comes from data/facts-2026.md. Every piece passes

  fact-check and fin-compliance before a person sees it.

- Files: research/ · strategy/ · content/<channel>/ · web/ · reports/ ·

  review/approvals.csv

Hand-offs

Strategist (brief) -> Creator and Designer (copy, visuals) -> Website

Designer (pages) -> Lead (checks) -> a person (approval) -> publish.

Growth Analyst measures every campaign and feeds the next brief.
