

Lab 05 — Campaign 1: Research to Storyboard, with Subagents

Multi AI Agents Workflow for Content Creation (Claude Edition) · Day 1 · Use Claude Code

USE: CLAUDE CODE — Code mode (the `</>` button) in the Claude desktop app, in your horizon-studio folder

Course: Multi AI Agents Workflow for Content Creation (Claude Edition) (TGS-2023036153)

Day 1 · Topic 1 · about 50 minutes · slides 67–73

Surface: Claude Code (subagents in parallel)

Features: the Lead delegates · strategist and analyst in parallel · nine scored ideas · a human concept checkpoint · a five-beat storyboard

Copy the prompts: <https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/claude/#lab-5> — click **Copy** next to each prompt, then paste it into the chat.

The story so far

The team's first campaign: 'Know Your Number', November to January. Rachel wants research, ideas for three audiences, her choice, and a storyboard every channel follows.

Your goal

The team's first job: find who to reach and what to say for the "Know Your Number" campaign — research in parallel, ideas scored, a person choosing, a storyboard every channel follows.

You'll build

competitor research, the funnel, nine scored ideas, the campaign brief and a five-beat storyboard with three channel variants — shown as artifacts, with a Word copy of each

What is in this folder

.md or .pdf? A .md file (Markdown) is plain text that Claude reads. Every .md here has a .pdf twin with the same name — open the PDF to read it yourself.

- assets/campaign-objective.md
- assets/idea-rubric.md
- assets/storyboard-template.md
- assets/firm-metrics.csv
- assets/services.csv
- prompts.md / prompts.pdf — every prompt, ready to paste
- evidence/checklist.md / checklist.pdf — what to capture as proof

Step by step

1. **New session** — Left sidebar: click + next to horizon-studio. Click the session title at the top and rename it "Lab 5". Run all of this lab's prompts in it.
2. **Brief the Lead** — The briefs are already in data/. You are the client; your session is the Marketing Team Lead.
3. **Research in parallel** — Copy and paste Prompt A. Watch the strategist and the analyst run at the same time.
4. **Read the ideas** — Nine ideas, scored with the rubric — the top five open as an artifact beside the chat. The Lead stops for you.
5. **Choose** — Pick one idea in the artifact's Ideas tab and note its number and why — the human concept checkpoint.
6. **Storyboard** — After you have chosen, copy and paste Prompt B in the chat, replacing <number> and <one line> with your choice.
7. **Decide as Rachel** — After you have read the issues, copy and paste Prompt C. You confirm what is true about Horizon; the team removes or fixes the rest.

The prompts

PROMPT A — Claude Code: research and ideas

Act as the Marketing Team Lead for the campaign in data/campaign-objective.md.
Use subagents, in parallel:

- growth-strategist: competitor-scan → save research/competitive-analysis.md.
- growth-analyst: the funnel in data/firm-metrics.csv — what 40 chats a month needs → save research/funnel.md.

When both finish, the growth-strategist proposes three ideas each for young professionals, mid-career families and pre-retirees, scored with data/idea-rubric.md and tagged with a funnel stage (content-marketing) → strategy/ideas.md.
Publish the top five as an artifact — one card per idea with its score, persona and funnel stage — and a box at the top that tells me what to do next.
Then stop. I will choose.
Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT B — Claude Code: the storyboard

I choose idea <number>, because <one line>.
Use subagents:
- growth-strategist: campaign-brief → strategy/campaign-brief.md, then a five-beat storyboard with data/storyboard-template.md → strategy/storyboard.md.
- content-creator: three channel variants that keep the same claims — LinkedIn, Facebook, a 60-second video.
Then run fact-check and fin-compliance yourself and show me the issues before anything is final.
Publish the brief and the storyboard as an artifact with a tab for the brief (goal, audience, message, call to action); a tab for the five beats side by side, each with its claim and source, and the three variants below; and the issues in a table.
Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT C — Claude Code: decide on the issues

I confirm "no obligation" and the free checklist — add them to the facts sheet (data/facts-2026.md).
Delete any other claim that is not on the facts sheet. Fix all the Medium and Low issues, then show me the updated storyboard and publish it as an artifact.
Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- *After Prompt A:* "Explain this result in three sentences. Which idea would you pick, and why?"
- "Why does idea <number> score higher than idea <number>?"
- "What does the funnel say is our biggest problem?"
- *After Prompt B:* "Explain the issues in plain English. What do I need to decide?"
- *After Prompt C:* "What changed since the last version? Is anything still not ready for Rachel?"

Check your work

- ☐ The strategist and the analyst ran in parallel.

- ☐ The competitor analysis and the funnel are done, with sources.
- ☐ Nine scored ideas, each with its author.
- ☐ You chose the idea and recorded why.
- ☐ The storyboard has five beats; every claim has a source.
- ☐ You confirmed two claims; after Prompt C no High issue is left.

If it goes wrong

- **The Lead did the work itself** — Ask directly for subagents, naming each agent.

Stretch

- Ask the analyst which persona the funnel says to target first, and compare it with your choice.

Why it matters: Agents diverge; a person decides. The concept checkpoint is where the campaign becomes yours.

Next

Lab 6 — Growth Analyst: Personas from Evidence. Keep what you built — the next lab starts from it.

Safety

Use only this lab's synthetic data and your own accounts. Never paste a real API key, password, token or client data into a prompt or a file. Every email address in the data must resolve to your own inbox. Nothing is published or sent without a person approving that exact version.
