

The Hermes team (Lab 12)

Multi AI Agents Workflow for Content Creation · Day 2 · Hermes Agent (profiles, Kanban)

Profile	--description (what the board reads)
researcher	Gathers and checks facts for Horizon content from facts-2026.md and the content spec. Never writes posts.
writer	Writes Horizon posts and newsletter items in the sunny-voice skill from the researcher's facts.
reviewer	Checks Horizon content with the fact-check and fin-compliance skills. Requests changes until it passes, then blocks for a person's approval.

Model tip: a capable model for the reviewer; a cheaper one is fine for the researcher.
