

Lab 15 — Optional Demo: a Dot Team Lead and Workspace Agents

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 2 · Use ChatGPT

USE: CHATGPT — the ChatGPT desktop app

Course: Multi AI Agents Workflow for Content Creation (ChatGPT Edition) (TGS-2023036153)

Day 2 · Topic 4 · about 20 minutes · slides 152–155

Surface: ChatGPT Dots and workspace agents — trainer demo

Features: a Dot as an always-on Team Lead · Custom Rules · Activity View · workspace agents with apps and triggers

Copy the prompts: <https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/chatgpt/#lab-15> — click **Copy** next to each prompt, then paste it into the chat.

The story so far

Optional. Rachel asks whether the Lead could work around the clock. The trainer shows a Dot as an always-on Team Lead and a workspace agent on a weekly trigger.

Your goal

Optional: on the right plans, the Lead can be an always-on Dot and each specialist a shared workspace agent — the same roles, skills and rules, running without you.

You'll build

a demo Dot with Custom Rules that block sending, and one workspace agent (Growth Analyst) on a weekly trigger

What is in this folder

.md or .pdf? A .md file (Markdown) is plain text that Claude reads. Every .md here has a .pdf twin with the same name — open the PDF to read it yourself.

- `assets/dot-and-workspace-agents.md`
- `prompts.md` / `prompts.pdf` — every prompt, ready to paste
- `evidence/checklist.md` / `checklist.pdf` — what to capture as proof

Step by step

1. **Check the plan** — Dots: the first one is included on Pro and Business Premium. Workspace agents: Business, Enterprise, Edu.
2. **Make the Dot** — Give it the Team Lead's instructions and only the apps it needs.
3. **Set Custom Rules** — Block sending, deleting and posting; require approval for anything account-affecting.
4. **Give it one job** — Copy and paste the prompt. Watch the work in Activity View.
5. **Build a workspace agent** — Agents in the sidebar → describe the Growth Analyst's weekly report → add apps → choose a trigger.

The prompts

PROMPT — the Dot

You are Horizon Wealth Planning's Marketing Team Lead. Every Monday, summarise the week's calendar from the Horizon Studio Drive folder, list anything due for review, and draft — never send — a short brief to me. Ask before any action outside reading and drafting.

Check your work

- ☐ The Dot has the Lead's instructions and only the apps it needs.
- ☐ Custom Rules block sending and posting.
- ☐ Activity View shows what it did.
- ☐ The workspace agent has apps and a weekly trigger.

If it goes wrong

- **No Dot option** — Dots need Pro or Business Premium; watch the trainer demo.

Stretch

- @mention the Dot in a ChatGPT Space page about the campaign.

Why it matters: Optional, not assessed. Always-on agents make the human gate more important, not less.

Next

The course summary, then the assessment.

Safety

Use only this lab's synthetic data and your own accounts. Never paste a real API key, password, token or client data into a prompt or a file — tokens live only in `.env`. Every email address in the data must resolve to your own inbox. Nothing is published or sent without a person approving that exact version.
