

Prompts — Lab 09: The Lead Magnet: a Checklist and Its Welcome Emails

Multi AI Agents Workflow for Content Creation (Claude Edition) · Day 2 · Use Claude Code

Use: Claude Code — Code mode (the `</>` button) in the Claude desktop app, in your horizon-studio folder. Paste each prompt as written; change only what the lab tells you to.

Easiest: copy each prompt from <https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/claude/#lab-9> (one Copy button per prompt).

PROMPT A — Claude Code: the checklist

Use the lead-magnet skill. Turn data/checklist-items.md into the "Money Check-up Checklist": a title with one promise, the ten items as tick boxes, one figure from data/facts-2026.md, the next step (book a free chat) and the full disclaimer. Lay it out as a printable A4 page in the colours and fonts in data/brand.md and publish it as an artifact. Save a PDF of it in content/lead-magnet/.
Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT B — Claude Code: the welcome emails

Use the Marketing plugin's email sequence to write three welcome emails for people who download the checklist: day 0 (here it is), day 3 (the item most people miss – the retirement number), day 7 (book a free chat). Follow the newsletter and sunny-voice skills → content/email/welcome-sequence.md.
Then, using the Gmail connector, create the three emails as DRAFTS in my Gmail, addressed to me. Send nothing.
Publish the three emails as an artifact: one tab per email, laid out as it will look in the inbox.
Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT C — Claude Code: check it

Run fact-check and fin-compliance on the checklist text and the three emails. Show the issues in one table, with a fix for each. Once I agree, make the fixes in the files and in the Gmail drafts. Publish the table as an artifact, coloured by severity.

Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT D — Claude Code: put it on the website

Add the checked Money Check-up Checklist to Horizon's website in web/site/index.html, as a new section before the reviews, in the site's style: the title and promise, what's inside, and an email box with a required consent tick box. Once a valid email is entered, show the ten items as tick boxes and a "Print or save as PDF" button. Add "Free checklist" to the menu. Change nothing else on the site. Then open web/site/index.html in my web browser.

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "Which checklist item do people most often miss, and why does it matter?"
- "Read the day 3 email as a 55-year-old. Is anything unclear?"
- "Explain each issue in one line: what is wrong, and the fix."
