

Evidence — Lab 10: Campaign 2: Social Media Posts (Demo)

Multi AI Agents Workflow for Content Creation (Claude Edition) · Day 2 · Use Claude Code

Capture a screenshot or file for each line. Evidence beats a description.

- ☐ The gate stopped Claude from approving.
- ☐ Two teammates ran; the task list showed their tasks.
- ☐ The designer and the creator messaged each other.
- ☐ Two posts with images, alt text, frontmatter and UTM links.
- ☐ You reviewed in the artifact or by email and pasted the approval in the chat; the rows show your name and a hash.
- ☐ Dry runs printed every request; nothing went live unless you said go.

Notes

What did not work first time, and what you changed:

What you did NOT verify:
