

Lab 05 — Campaign 1: Research to Storyboard, with Subagents

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 1 · Use Codex

USE: CODEX — Codex, in your horizon-studio folder

Course: Multi AI Agents Workflow for Content Creation (ChatGPT Edition) (TGS-2023036153)

Day 1 · Topic 1 · about 50 minutes · slides 65–71

Surface: Codex (subagents in parallel)

Features: the Lead delegates · strategist and analyst in parallel · nine scored ideas · a human concept checkpoint · a five-beat storyboard

Copy the prompts: <https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/chatgpt/#lab-5> — click **Copy** next to each prompt, then paste it into the chat.

The story so far

The team's first campaign: 'Know Your Number', November to January. Rachel wants research, ideas for three audiences, her choice, and a storyboard every channel follows.

Your goal

The team's first job: find who to reach and what to say for the "Know Your Number" campaign — research in parallel, ideas scored, a person choosing, a storyboard every channel follows.

You'll build

competitor research, the funnel, nine scored ideas, the campaign brief and a five-beat storyboard with three channel variants — with a Word copy of each

What is in this folder

.md or .pdf? A .md file (Markdown) is plain text that Claude reads. Every .md here has a .pdf twin with the same name — open the PDF to read it yourself.

- assets/campaign-objective.md
- assets/idea-rubric.md
- assets/storyboard-template.md
- assets/firm-metrics.csv
- assets/services.csv
- prompts.md / prompts.pdf — every prompt, ready to paste
- evidence/checklist.md / checklist.pdf — what to capture as proof

Step by step

1. **New session** — In Codex start a new thread in horizon-studio and name it "Lab 5". Run all of this lab's prompts in it.
2. **Brief the Lead** — The briefs are already in data/. You are the client; your session is the Marketing Team Lead.
3. **Research in parallel** — Copy and paste Prompt A. Watch the strategist and the analyst run at the same time.
4. **Read the ideas** — Nine ideas, scored with the rubric. The Lead stops for you.
5. **Choose** — Pick one idea and note its number and why — the human concept checkpoint.
6. **Storyboard** — After you have chosen, copy and paste Prompt B in the chat, replacing <number> and <one line> with your choice.
7. **Decide as Rachel** — After you have read the issues, copy and paste Prompt C. You confirm what is true about Horizon; the team removes or fixes the rest.

The prompts

PROMPT A — Codex: research and ideas

Act as the Marketing Team Lead for the campaign in data/campaign-objective.md.
Use subagents, in parallel:
- growth-strategist: competitor-scan → save research/competitive-analysis.md.
- growth-analyst: the funnel in data/firm-metrics.csv — what 40 chats a month needs → save research/funnel.md.
When both finish, the growth-strategist proposes three ideas each for young professionals, mid-career families and pre-retirees, scored with data/idea-rubric.md and tagged with a funnel stage (content-marketing) → strategy/ideas.md.
Show me the top five and stop — I will choose.
Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT B — Codex: the storyboard

I choose idea <number>, because <one line>.
Use subagents:
- growth-strategist: campaign-brief → strategy/campaign-brief.md, then a five-beat storyboard with data/storyboard-template.md → strategy/storyboard.md.
- content-creator: three channel variants that keep the same claims — LinkedIn, Facebook, a 60-second video.
Then run fact-check and fin-compliance yourself and show me the issues before anything is final.
Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT C — Codex: decide on the issues

I confirm "no obligation" and the free checklist — add them to the facts sheet (data/facts-2026.md).
Delete any other claim that is not on the facts sheet. Fix all the Medium and Low issues, then show me the updated storyboard.
Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- *After Prompt A:* "Explain this result in three sentences. Which idea would you pick, and why?"
- "Why does idea <number> score higher than idea <number>?"
- "What does the funnel say is our biggest problem?"
- *After Prompt B:* "Explain the issues in plain English. What do I need to decide?"
- *After Prompt C:* "What changed since the last version? Is anything still not ready for Rachel?"

Check your work

- ☐ The strategist and the analyst ran in parallel.
- ☐ The competitor analysis and the funnel are done, with sources.
- ☐ Nine scored ideas, each with its author.
- ☐ You chose the idea and recorded why.
- ☐ The storyboard has five beats; every claim has a source.
- ☐ You confirmed two claims; after Prompt C no High issue is left.

If it goes wrong

- **The Lead did the work itself** — Ask directly for subagents, naming each agent.

Stretch

- Ask the analyst which persona the funnel says to target first, and compare it with your choice.

Why it matters: Agents diverge; a person decides. The concept checkpoint is where the campaign becomes yours.

Next

Lab 6 — Growth Analyst: Personas from Evidence. Keep what you built — the next lab starts from it.

Safety

Use only this lab's synthetic data and your own accounts. Never paste a real API key, password, token or client data into a prompt or a file — tokens live only in .env. Every email address in the data must resolve to your own inbox. Nothing is published or sent without a person approving that exact version.
