

Evidence — Lab 06: Growth Analyst: Personas from Evidence

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 1 · Codex (analyst subagents)

Capture a screenshot or file for each line. Evidence beats a description.

- ☐ Three analyst subagents ran, one per file.
- ☐ Every persona statement carries a count and a file.
- ☐ The 60+ group is LOW CONFIDENCE (n = 12).
- ☐ The most-unticked checklist item is the retirement number.
- ☐ Enquiry quotes are verbatim, with ids.
- ☐ content-spec.md has every field for every persona.

Notes

What did not work first time, and what you changed:

What you did NOT verify:
