

Prompts — Lab 08: Campaign 2: A Social Media Week

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 2 · Codex (subagents) → LinkedIn, Facebook

Surface: Codex (subagents) → LinkedIn, Facebook. Paste each prompt as written; change only what the lab tells you to.

PROMPT A — Codex: the social team

You are the Lead. Plan Week 1 social from data/social-brief.md and strategy/calendar.csv. Use subagents in parallel, each following its card:

- content-creator: 2 LinkedIn + 3 Facebook posts, one file each in content/social/week-01/, with the frontmatter in data/publishing-spec.md.
- creative-designer: one image per post with \$imagegen (or @Canva) and alt text, from the brief.

Then run fact-check and fin-compliance on every post and send each fix back to the right subagent. When a post passes, run node scripts/submit.mjs on it. Publish nothing.

PROMPT B — Codex: publish

For every Week 1 post approved in review/approvals.csv, run node scripts/publish.mjs <id> as a dry run and show me each request. Wait for me to say "go" before any --live run.
