

Prompts — Lab 09: Campaign 3: Newsletter and a Landing Page

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 2 · Codex (subagents) → @Sites → ChatGPT Work (@Gmail)

Surface: Codex (subagents) → @Sites → ChatGPT Work (@Gmail). Paste each prompt as written; change only what the lab tells you to.

PROMPT A — Codex: the newsletter team

You are the Lead for the November Sunny Sunday email (data/newsletter-brief.md, data/newsletter-spec.md) and its landing page (data/landing-page-brief.md). Use subagents:

- content-creator: issue.md (id nl-2026-11) and the landing-page copy.
- website-designer: web/checklist/index.html with landing-page; page-qa.
- growth-analyst: recipients.csv and excluded.csv from data/subscribers.csv.

Check everything, then submit nl-2026-11. After I approve, build newsletter.html and .txt, and deploy web/checklist with @Sites (Only those invited).

PROMPT B — ChatGPT Work: Gmail drafts

Using @Gmail, create a DRAFT of the newsletter in content/newsletter/2026-11/newsletter.html (upload it) for each address in recipients.csv, plus one draft to me only. Send nothing. Report how many drafts and how many people were excluded, and why.
