

Lab 11 — Campaign 5: Always On — the Weekly Growth Report

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 2 · ChatGPT Work (skill, scheduled task, @Drive, @Gmail)

Course: Multi AI Agents Workflow for Content Creation (ChatGPT Edition) (TGS-2023036153)

Day 2 · Topic 4 · about 35 minutes · slides 110–113

Surface: ChatGPT Work (skill, scheduled task, @Drive, @Gmail)

Features: the Growth Analyst's campaign-report skill · do · verify · schedule · draft-only delivery

The story so far

The team must keep working after class. Rachel wants the Growth Analyst's report in her inbox every Monday — as a draft she decides on.

Your goal

The team should keep working when class ends. Every Monday the Growth Analyst's report lands in Rachel's inbox as a draft — the decision stays with a person.

You'll build

a scheduled task that drafts the weekly growth report every Monday at 8am, and one draft in Gmail

What is in this folder

- assets/campaign-results.csv
- assets/weekly-report-brief.md
- assets/scheduled-task-instructions.md
- prompts.md / prompts.pdf — every prompt, ready to paste
- evidence/checklist.md — what to capture as proof

Step by step

1. **Put the data on Drive** — Upload campaign-results.csv to the Horizon Studio folder.
2. **Bring the skill** — Use @skill-creator to add campaign-report to ChatGPT.
3. **Do it once** — Paste Prompt A. Refine the report until it is right.
4. **Schedule it** — Paste Prompt B. Runs appear in Scheduled.
5. **Run it now** — Run the task once and open the Gmail draft.
6. **Pause it** — After class, pause the scheduled task.

The prompts

PROMPTS A and B — ChatGPT Work

PROMPT A

Act as Horizon's Growth Analyst. Using @Google Drive, read campaign-results.csv in the Horizon Studio folder. Use the campaign-report skill and weekly-report-brief.md. Leave the report as a @Gmail DRAFT to me, subject "Horizon weekly growth report" and today's date. Send nothing.

PROMPT B

Do this every Monday at 8am, as a scheduled task. Draft only — never send, publish or approve anything.

Check your work

- ☐ The campaign-report skill is available in ChatGPT.
- ☐ The report names the cheapest channel per chat (the newsletter).
- ☐ It recommends a budget split with a reason per channel.
- ☐ A scheduled task runs Mondays at 8am with draft-only instructions.
- ☐ A manual run left a draft — nothing was sent.
- ☐ The task is paused after class.

If it goes wrong

- **It sent the email** — Write "draft only — never send" in both the skill and the task instructions.

Stretch

- Add a Friday 5pm task from the Lead: what was published and what is still pending.

Why it matters: Automate the preparation, not the decision. The schedule fills an inbox; a person still decides.

Next

Lab 12 — Measure, Govern and Write the Team Playbook. Keep what you built — the next lab starts from it.

Safety

Use only this lab's synthetic data and your own accounts. Never paste a real API key, password, token or client data into a prompt or a file — tokens live only in .env. Every email address in the data must resolve to your own inbox. Nothing is published or sent without a person approving that exact version.
