

Labs — Multi AI Agents Workflow for Content Creation (Claude Edition)

TGS-2023036153 · 13 labs · build an AI marketing team, then run five campaigns with it.

The scenario

Rachel Goh founded Horizon Wealth Planning in 2010. Fifteen years and 1,200 clients later, almost every new client still comes through a referral — and referrals are slowing. Younger Singaporeans look for money help on LinkedIn, Facebook, YouTube and in their inbox, and Horizon is invisible there. Rachel has a website, three planners, a part-time marketer (Jun Wei) and S\$4,000 a month. She wants 40 booked free chats a month by March 2027 — without hiring a marketing team. So you will build her one, made of AI agents, with Claude and Claude Code:

Marketing Team Lead — plans, assigns, checks, hands to a person

Growth Strategist — research, positioning, briefs, storyboards

Content Creator — posts, newsletter, scripts, page copy

Creative Designer — images, thumbnails, the video

Website Designer — landing pages, published and QA-checked

Growth Analyst — personas, cadence, results, weekly report

First you form the team: instructions, skills and connectors for each agent.

Then the team runs five campaigns together. Financial content is regulated, so a person approves every piece before it goes out. The data is fictitious but consistent, and every email address resolves to your own inbox.

The labs

#	Lab	Day	Surface	Time
01	[Set Up the Studio and Explore Horizon's Website] (lab-01-studio-and-website/README.md)	1	Claude Code	30 min

02	[Form the Team: Instructions for Each Agent](lab-02-agent-instructions/README.md)	1	Claude Code (subagent files)	45 min
03	[Give Each Agent Its Skills](lab-03-agent-skills/README.md)	1	Claude Code (.claude/skills/) → Claude	50 min
04	[Connect the Tools Each Agent Needs] (lab-04-agent-connectors/README.md)	1	claude.ai connectors → Claude Code (/mcp)	45 min
05	[Campaign 1: Research to Storyboard, with Subagents](lab-05-campaign-1-research-to-storyboard/README.md)	1	Claude Code (subagents in parallel)	50 min
06	[Growth Analyst: Personas from Evidence](lab-06-personas-from-evidence/README.md)	1	Claude Code (analyst subagents)	40 min
07	[Growth Analyst and Strategist: Cadence and Calendar] (lab-07-cadence-and-calendar/README.md)	1	Claude Code (subagents)	35 min
08	[Campaign 2: A Social Media Week] (lab-08-campaign-2-social-week/README.md)	2	Claude Code (agent team) → LinkedIn, Facebook	50 min
09	[Campaign 3: Newsletter and a Landing Page] (lab-09-campaign-3-newsletter-and-landing-page/README.md)	2	Claude Code (agent team) → Claude artifact, Gmail	45 min
10	[Campaign 4: The YouTube Explainer] (lab-10-campaign-4-youtube-explainer/README.md)	2	Claude Code (agent team, render, upload)	45 min
11	[Campaign 5: Always On — the Weekly Growth Report](lab-11-campaign-5-weekly-growth-report/README.md)	2	Claude (skill, scheduled task, Drive, Gmail)	35 min
12	[Measure, Govern and Write the Team Playbook](lab-12-team-playbook/README.md)	2	Claude Code (subagents)	40 min

13	[Optional Demo: the Team on Hermes Agent](lab-13-optional-hermes-agent-demo/README.md)	2	Hermes Agent (profiles, Kanban) — trainer demo	25 min
----	--	---	--	--------

Before you start

- The Claude desktop app on a Pro plan or above and the Claude Code CLI, signed in with `/login`.
- Node.js 22, Python 3 with Pillow, and ffmpeg.
- A personal Google account for Drive and Gmail, and a Canva account; optional LinkedIn, Facebook Page and YouTube accounts for live publishing.
- One working folder, `horizon-studio/`, from Lab 1 to Lab 12 — ready-made in this pack with every lab's data in `data/`. Choose it in Claude (Project or folder → Add folder); do not create one.
- Lab 13 is an optional trainer demo.

Safety

Use only this lab's synthetic data and your own accounts. Never paste a real API key, password, token or client data into a prompt or a file — tokens live only in `.env`. Every email address in the data must resolve to your own inbox. Nothing is published or sent without a person approving that exact version.
