

Prompts — Lab 01: Set Up the Studio and Explore Horizon's Website

Multi AI Agents Workflow for Content Creation (Claude Edition) · Day 1 · Claude Code

Surface: Claude Code. Paste each prompt as written; change only what the lab tells you to.

PROMPT A — Claude Code: design your team

Act as a marketing consultant. Interview me, the owner of Horizon Wealth Planning, to design my AI marketing team. Ask one question at a time and wait for my answer: my goal, what success looks like by March 2027, who we want to reach, which channels we use, how much we publish each week, and who approves before anything goes out. Then list 8 to 10 team members I could have, numbered, each with a one-line job. Include the six roles in data/team-charter.md and mark the ones you recommend. Wait for me to choose. Save my answers and my chosen team, with each member's job, to data/team-design.md.

PROMPT B — Claude Code: the charter

Read data/team-charter.md, data/team-design.md and data/business-brief.md. Write CLAUDE.md for this studio in four sections – What this is, The team, Rules, Files – under 60 lines. The team is the one I chose in data/team-design.md. Rules must include: every number comes from data/facts-2026.md; every piece passes fact-check and fin-compliance; nothing is published or sent without a person's approval.

PROMPT C — Claude Code: know the site

Read web/site/index.html, the local copy of Horizon's public website. In five bullets: who it is for, the offer, the main call to action, what the calculator does, and the disclaimer. Then add this line to the Files section of CLAUDE.md: Public site (link in every post): <https://claude.ai/artifact/J82VCbzFqYps2vep8UYhL>
