

Connectors for each agent (Claude edition)

Multi AI Agents Workflow for Content Creation (Claude Edition) · Day 1 · claude.ai connectors → Claude Code (/mcp)

Connect once in claude.ai → Settings → Connectors, with your PERSONAL Google account. Claude Code picks up the claude.ai connectors — check with /mcp.

Agent	May use	Limit
Marketing Team Lead	Google Drive (read), Gmail	Gmail: drafts only
Growth Strategist	WebSearch, WebFetch, Google Drive (read)	cite every source
Content Creator	Google Drive (docs), Gmail	Gmail: drafts only
Creative Designer	Canva; Bash for Pillow and ffmpeg	no real or synthetic "clients"
Website Designer	Artifacts; Playwright MCP	publish only after approval
Growth Analyst	Google Drive and Sheets (read); Bash for Python	no personal data in reports

Browser for the Website Designer (project scope):

```
claude mcp add playwright -s project -- npx -y @playwright/mcp@latest
```

Least privilege: list in each agent's tools : only the built-in tools its

job needs, and write the connector limits into its instructions. The

approval hook (Lab 8) blocks every agent from approving or publishing.
