

Prompts — Lab 12: Measure, Govern and Write the Team Playbook

Multi AI Agents Workflow for Content Creation (Claude Edition) · Day 2 · Claude Code (subagents)

Surface: Claude Code (subagents). Paste each prompt as written; change only what the lab tells you to.

PROMPT A — Claude Code: compare

Use the growth-analyst subagent. From data/run-log.csv compare the patterns we used – one agent, subagents, agent teams and the scheduled task – on minutes, tokens, defects caught before a person and human edits. Which pattern pays off for which job? Save reports/agent-comparison.md.

PROMPT B — Claude Code: the playbook

Write strategy/team-playbook.md with data/playbook-outline.md. Include the roster: for each agent its instructions file in .claude/agents/, its skills, connectors, model and what it may never do; the approval matrix by risk; the rules in data/responsible-ai-checklist.md; and what to do when a wrong post goes out. Then run fin-compliance on it.
