

Prompts — Lab 06: Content Cadence and the Editorial Calendar

Multi AI Agents Workflow for Content Creation · Day 1 · Claude Cowork

Surface: Claude Cowork. Paste each prompt as written; change only what the lab tells you to.

PROMPT A — Cowork: cadence

Using `data/channel-benchmarks.csv` and `data/team-capacity.md`, recommend how often to publish on LinkedIn, Facebook, the newsletter and YouTube. For each channel compare: the extra clicks from one more post, the unfollows or unsubscribes it costs, and the hours it takes. Show the numbers and the point where more posts stop paying off. Save `strategy/cadence.md`.

PROMPT B — Cowork: the calendar

Build a four-week editorial calendar from Monday 2 November 2026 in `strategy/calendar.csv`, in the columns of `data/calendar-format.csv`. Use the cadence, `strategy/storyboard.md` and `strategy/content-spec.md`.

- Every item has `review_by` two business days before its date; nothing on a public holiday.
- No week exceeds the team's hours.

Then show me a week-by-week summary with hours.
