

The Monday content brief (Lab 13)

Multi AI Agents Workflow for Content Creation · Day 2 · Hermes Agent (gateway bot, cron)

Every Monday at 8am Hermes prepares the week's content brief and sends it to you for approval. It never publishes.

The brief: this week's items from strategy/calendar.csv; for each, the persona, the key fact from facts-2026.md and a one-line hook; anything due for review in the next 2 business days; anything still pending in review/approvals.csv.

Reply APPROVE to accept, or tell it what to change.
