

Prompts — Lab 08: Content Creator: A Quick Blog Article

Multi AI Agents Workflow for Content Creation (Claude Edition) · Day 1 · Use Claude Code

Use: Claude Code — Code mode (the `</>` button) in the Claude desktop app, in your horizon-studio folder. Paste each prompt as written; change only what the lab tells you to.

Easiest: copy each prompt from <https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/claude/#lab-8> (one Copy button per prompt).

PROMPT — Claude Code: a quick blog

```
Write a quick blog article for Horizon and post it
to the website. Use the blog-post, sunny-voice,
fact-check and fin-compliance skills.
1. Pick one topic from strategy/storyboard.md that
   a Singaporean would search for. Use Firecrawl to
   find two current sources (CPF Board, MAS or
   MoneySense), each with its date.
2. Write 500-700 words: a title under 60
   characters, every figure from data/facts-2026.md,
   one call to action (book a free 30-minute
   chat) and the full disclaimer →
   content/blog/<slug>.md.
3. Run fact-check and fin-compliance; fix every
   issue and list each fix in one line.
4. Add it to the blog in web/site/index.html as one
   new post, built like the posts already there.
   Change nothing else on the site. Then open
   web/site/index.html in my web browser.
Write for a business owner, in plain English. Save
a Word copy (.docx) of the article.
```

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "Summarise the article in three sentences. Who is it for?"
- "Why did you pick this topic, and who will search for it?"
- "What did the checks find, and how did you fix it?"
