Programme

Two days · 16 hours of training · separate WA 60 minutes and PP 120 minutes. TSC: ICT-SNM-4004-1.1 Content Strategy

Day 1 · 8 training hours

Time	Topic and evidence	Slide range	Method
00:00–04:00	Topic 1: Multi-AI-Agent Content Ideation and Digital Storyboarding; Labs 01–03; artifacts and review evidence	9–64	Visual models, worked GreenLeaf case, guided lab and review
Guided practice	Lab 01: Campaign objective and role charter · goal sheet, role charter and brief	10–26	Follow the LG procedure; save evidence and human review
Guided practice	Lab 02: Research packet and idea ranking · source cards, claim ledger and ranked ideas	30–46	Follow the LG procedure; save evidence and human review
Guided practice	Lab 03: Five-beat storyboard · scene sheet, variants and QA decision	50–62	Follow the LG procedure; save evidence and human review
04:00–08:00	Topic 2: Audience Research and Content Requirement Analysis; Labs 04–06; artifacts and review evidence	67–122	Visual models, worked GreenLeaf case, guided lab and review
Guided practice	Lab 04: Audience evidence and personas · evidence register, segments and persona matrix	68–84	Follow the LG procedure; save evidence and human review
Guided practice	Lab 05: Requirements and cadence · content specification and four-week calendar	88–104	Follow the LG procedure; save evidence and human review

Guided practice	Lab 06: Research-agent handoff · validated audience brief with uncertainty labels	108–120	Follow the LG procedure; save evidence and human review
-----------------	---	---------	---

Day total: 8 hours. Trainer demonstrates the mechanism and evidence gate; learners execute detailed procedures from the Learner Guide and lab packs.

Day 2 • 8 training hours

Time	Topic and evidence	Slide range	Method
00:00–04:00	Topic 3: Multi-Channel Content Creation and Agent Workflow Coordination; Labs 07–09; artifacts and review evidence	125–180	Visual models, worked GreenLeaf case, guided lab and review
Guided practice	Lab 07: Agent workflow state machine · task ledger and typed handoff	126–142	Follow the LG procedure; save evidence and human review
Guided practice	Lab 08: Draft, edit and fact-check · source-linked article and review log	146–162	Follow the LG procedure; save evidence and human review
Guided practice	Lab 09: Multi-channel asset pack · email, social, visual brief and multimodal QA	166–178	Follow the LG procedure; save evidence and human review
04:00–08:00	Topic 4: Content Distribution, Strategy Guidelines and Responsible AI Practices; Labs 10–12; artifacts and review evidence	183–238	Visual models, worked GreenLeaf case, guided lab and review
Guided practice	Lab 10: Distribution release gate · channel matrix, dependencies and approval record	184–200	Follow the LG procedure; save evidence and human review
Guided practice	Lab 11: Rights, privacy and disclosure · rights ledger, safe data and disclosure decision	204–220	Follow the LG procedure; save evidence and human review
Guided practice	Lab 12: Run evaluation and governance · dashboard, experiment plan and execution playbook	224–236	Follow the LG procedure; save evidence and human review

Day total: 8 hours. Trainer demonstrates the mechanism and evidence gate; learners execute detailed procedures from the Learner Guide and lab packs.

Assessment briefing

WA: six open-ended K1–K6 questions, 60 minutes. PP: four practical tasks, A1–A7, 120 minutes.

Candidate papers only are delivered through LMS-TMS. The assessor keeps model answers private.
