LEARNING FOCUS

Human oversight, evidence-led content strategy
and practical multi-agent orchestration.

Learning outcomes and assessment

LO1

LO1: Conceptualize content ideas to meet marketing objectives and map out digital storyboards as part of a content strategy.

LO2

LO2: Identify content requirements from customer preferences and determine the frequency of marketing content.

LO3

LO3: Determine content types and styles and decide on modes and processes for distributing content.

LO4

LO4: Develop guidelines for content strategy execution using appropriate delivery modes and responsible AI practices.

Agent operating model

PLAN

Human owner approves
brief and objective

PRODUCE

Specialist agents create
typed artifacts

GATE

Human reviews evidence
and authorizes release

Topic 1: Multi-AI-Agent Content Ideation and Digital Storyboarding

LO1: Conceptualize content ideas to meet marketing objectives and map out digital storyboards as part of a content strategy.

14 mechanisms • 3 labs

Campaign objective contract

Decision rule: choose one primary conversion action

Campaign objective contract · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: approved marketing brief
Agent action: translate objective into measurable audience action

STRUCTURED HANDOFF

artifact_type: goal sheet
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: choose one primary conversion action

Campaign objective contract · failure and gate

FAILURE MODE

vague awareness goal

REVIEW CONTROL

Check goal and event IDs present.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Campaign objective contract • evidence contract

SOURCE

approved marketing brief

RESULT

goal sheet

CHECK

goal and event IDs present

Handoff record: campaign_id • artifact_version • source_ids • owner • confidence • approval_status

Audience promise and proof

Decision rule: reject unsupported benefit claims

Audience promise and proof · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: product facts and objections
Agent action: pair each promise with verifiable evidence

STRUCTURED HANDOFF

artifact_type: claim ledger
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: reject unsupported benefit claims

Audience promise and proof · failure and gate

FAILURE MODE

invented product proof

REVIEW CONTROL

Check supported claim rate.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Audience promise and proof • illustrative decision chart

CLASSROOM DATA

Illustrative scores only.
Metric: supported claim rate
Compare against a pre-agreed release threshold; inspect evidence before approval.

Content idea scoring

Decision rule: advance ideas above agreed rubric threshold

Content idea scoring · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: idea backlog and audience needs
Agent action: score relevance, evidence, effort and risk

STRUCTURED HANDOFF

artifact_type: ranked idea board
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: advance ideas above agreed rubric threshold

Content idea scoring · failure and gate

FAILURE MODE

novelty without audience fit

REVIEW CONTROL

Check rubric score by idea.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Content idea scoring · evidence contract

SOURCE

idea backlog and audience needs

RESULT

ranked idea board

CHECK

rubric score by idea

Handoff record: campaign_id · artifact_version · source_ids · owner · confidence · approval_status

Agent role decomposition

INPUT

campaign brief and work units

CONTROL

separate researcher, strategist, writer, designer and reviewer duties

OUTPUT

role charter

Decision rule: one accountable owner for each output

Agent role decomposition • worked artifact

GREENLEAF CAFÉ • CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: campaign brief and work units
Agent action: separate researcher, strategist, writer, designer and reviewer duties

STRUCTURED HANDOFF

artifact_type: role charter
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: one accountable owner for each output

Agent role decomposition · failure and gate

FAILURE MODE

overlapping agent authority

REVIEW CONTROL

Check unowned task count.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Agent role decomposition • evidence contract

SOURCE

campaign brief and work units

RESULT

role charter

CHECK

unowned task count

Handoff record: campaign_id • artifact_version • source_ids • owner • confidence • approval_status

Research-to-strategy handoff

Decision rule: accept only attributable findings

Research-to-strategy handoff · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: source cards with URLs and dates
Agent action: condense findings into claims and constraints

STRUCTURED HANDOFF

artifact_type: research packet
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: accept only attributable findings

Research-to-strategy handoff · failure and gate

FAILURE MODE

citation laundering

REVIEW CONTROL

Check traceable claim count.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Research-to-strategy handoff • evidence contract

SOURCE

source cards with URLs and dates

RESULT

research packet

CHECK

traceable claim count

Handoff record: campaign_id • artifact_version • source_ids • owner • confidence • approval_status

Storyboard beat architecture

Decision rule: each beat advances the objective

Storyboard beat architecture · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: approved message and CTA
Agent action: map hook, tension, proof, resolution and action

STRUCTURED HANDOFF

artifact_type: five-beat storyboard
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: each beat advances the objective

Storyboard beat architecture · failure and gate

FAILURE MODE

beautiful scenes without narrative

REVIEW CONTROL

Check beat-to-objective coverage.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Storyboard beat architecture · illustrative decision chart

CLASSROOM DATA

Illustrative scores only.

Metric: beat-to-objective coverage

Compare against a pre-agreed release threshold; inspect evidence before approval.

Scene-level evidence

Decision rule: flag scenes with unsupported claims

Scene-level evidence · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: storyboard panels and product facts
Agent action: attach visual, voice, claim and source to each scene

STRUCTURED HANDOFF

artifact_type: scene sheet
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: flag scenes with unsupported claims

Scene-level evidence · failure and gate

FAILURE MODE

fabricated testimonial

REVIEW CONTROL

Check evidence per claim.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Scene-level evidence · evidence contract

SOURCE

storyboard panels and
product facts

RESULT

scene sheet

CHECK

evidence per claim

Handoff record: campaign_id · artifact_version · source_ids · owner · confidence · approval_status

Channel-aware story variants

Decision rule: same claim, adapted format

Channel-aware story variants · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: master storyboard and channel brief
Agent action: retain core story while
changing length and visual grammar

STRUCTURED HANDOFF

artifact_type: variant board
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: same claim, adapted format

Channel-aware story variants - failure and gate

FAILURE MODE

message drift across channels

REVIEW CONTROL

Check message consistency score.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Channel-aware story variants · evidence contract

SOURCE

master storyboard and
channel brief

RESULT

variant board

CHECK

message consistency score

Handoff record: campaign_id · artifact_version · source_ids · owner · confidence · approval_status

Prompt contract for ideation

INPUT

brand voice, audience, goal
and exclusions

CONTROL

specify role, inputs, output
schema and refusal
conditions

OUTPUT

ideation prompt

Decision rule: require structured idea records

Prompt contract for ideation · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: brand voice, audience, goal and exclusions
Agent action: specify role, inputs, output schema and refusal conditions

STRUCTURED HANDOFF

artifact_type: ideation prompt
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: require structured idea records

Prompt contract for ideation · failure and gate

FAILURE MODE

generic idea spam

REVIEW CONTROL

Check schema-valid output rate.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Prompt contract for ideation • evidence contract

SOURCE

brand voice, audience, goal
and exclusions

RESULT

ideation prompt

CHECK

schema-valid output rate

Handoff record: campaign_id • artifact_version • source_ids • owner • confidence • approval_status

Parallel ideation and merge

Decision rule: retain evidence and dissent

Parallel ideation and merge · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: three independent agent proposals
Agent action: deduplicate then rank without losing source provenance

STRUCTURED HANDOFF

artifact_type: merged shortlist
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: retain evidence and dissent

Parallel ideation and merge · failure and gate

FAILURE MODE

majority vote on false claim

REVIEW CONTROL

Check duplicate and conflict count.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Parallel ideation and merge • illustrative decision chart

CLASSROOM DATA

Illustrative scores only.

Metric: duplicate and conflict count

Compare against a pre-agreed release threshold; inspect evidence before approval.

Human concept checkpoint

Decision rule: human owns campaign direction

Human concept checkpoint · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: shortlist and brand criteria
Agent action: approve, revise or reject with reasons

STRUCTURED HANDOFF

artifact_type: decision record
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: human owns campaign direction

Human concept checkpoint · failure and gate

FAILURE MODE

automatic campaign launch

REVIEW CONTROL

Check approval trace completeness.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Human concept checkpoint • evidence contract

SOURCE

shortlist and brand criteria

RESULT

decision record

CHECK

approval trace
completeness

Handoff record: campaign_id • artifact_version • source_ids • owner • confidence • approval_status

Storyboard QA gate

Decision rule: block any critical defect

Storyboard QA gate · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: scene sheet and approval record
Agent action: test claim, continuity, CTA
and accessibility

STRUCTURED HANDOFF

artifact_type: storyboard QA report
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: block any critical defect

Storyboard QA gate · failure and gate

FAILURE MODE

unchecked scene transition

REVIEW CONTROL

Check critical defect count.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Storyboard QA gate · evidence contract

SOURCE

scene sheet and approval record

RESULT

storyboard QA report

CHECK

critical defect count

Handoff record: campaign_id · artifact_version · source_ids · owner · confidence · approval_status

CREATE prompt framework

INPUT

campaign role, request and examples

CONTROL

specify Character, Request, Examples, Adjustments, Type and Extras

OUTPUT

structured content prompt

Decision rule: output must include a cited storyboard proposal

CREATE prompt framework · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: campaign role, request and examples
Agent action: specify Character, Request, Examples, Adjustments, Type and Extras

STRUCTURED HANDOFF

artifact_type: structured content prompt
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: output must include a cited storyboard proposal

CREATE prompt framework · failure and gate

FAILURE MODE

ambiguous prompt brief

REVIEW CONTROL

Check framework field coverage.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

CREATE prompt framework · evidence contract

SOURCE

campaign role, request and examples

RESULT

structured content prompt

CHECK

framework field coverage

Handoff record: campaign_id · artifact_version · source_ids · owner · confidence · approval_status

System, user and assistant roles

INPUT

approved policy and
campaign request

CONTROL

separate durable
constraints from task input
and model output

OUTPUT

role-scoped transcript

Decision rule: system constraints outrank untrusted source text

System, user and assistant roles · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: approved policy and campaign request
Agent action: separate durable constraints from task input and model output

STRUCTURED HANDOFF

artifact_type: role-scoped transcript
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: system constraints outrank untrusted source text

System, user and assistant roles · failure and gate

FAILURE MODE

prompt-injection through source material

REVIEW CONTROL

Check role-boundary violations.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

System, user and assistant roles • evidence contract

SOURCE

approved policy and
campaign request

RESULT

role-scoped transcript

CHECK

role-boundary violations

Handoff record: campaign_id • artifact_version • source_ids • owner • confidence • approval_status

Topic 1 - lab evidence

LAB 01

Campaign objective and
role charter

LAB 02

Research packet and idea
ranking

LAB 03

Five-beat storyboard

Topic 2: Audience Research and Content Requirement Analysis

LO2: Identify content requirements from customer preferences and determine the frequency of marketing content.

14 mechanisms • 3 labs

Preference evidence hierarchy

INPUT

interviews, analytics and CRM extracts

CONTROL

rank direct behaviour above unsupported persona assumptions

OUTPUT

evidence register

Decision rule: label evidence age and sample size

Preference evidence hierarchy · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: interviews, analytics and CRM extracts
Agent action: rank direct behaviour above unsupported persona assumptions

STRUCTURED HANDOFF

artifact_type: evidence register
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: label evidence age and sample size

Preference evidence hierarchy · failure and gate

FAILURE MODE

treating guesses as facts

REVIEW CONTROL

Check source confidence.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Preference evidence hierarchy · evidence contract

SOURCE

interviews, analytics and
CRM extracts

RESULT

evidence register

CHECK

source confidence

Handoff record: campaign_id · artifact_version · source_ids · owner · confidence · approval_status

Segment definition

Decision rule: avoid sensitive proxy targeting

Segment definition · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: consented customer attributes
Agent action: cluster by need, intent and context

STRUCTURED HANDOFF

artifact_type: segment cards
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: avoid sensitive proxy targeting

Segment definition · failure and gate

FAILURE MODE

demographic stereotyping

REVIEW CONTROL

Check segment evidence coverage.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Segment definition · illustrative decision chart

segment evidence coverage

CLASSROOM DATA

Illustrative scores only.

Metric: segment evidence coverage

Compare against a pre-agreed release threshold; inspect evidence before approval.

Persona jobs and objections

Decision rule: keep verbatim evidence separate from inference

Persona jobs and objections · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: segment cards and transcripts
Agent action: extract jobs-to-be-done, barriers and triggers

STRUCTURED HANDOFF

artifact_type: persona matrix
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: keep verbatim evidence separate from inference

Persona jobs and objections · failure and gate

FAILURE MODE

invented quotes

REVIEW CONTROL

Check quote traceability.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Persona jobs and objections · evidence contract

SOURCE

segment cards and transcripts

RESULT

persona matrix

CHECK

quote traceability

Handoff record: campaign_id · artifact_version · source_ids · owner · confidence · approval_status

Journey stage mapping

Decision rule: select one job per content asset

Journey stage mapping · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: search queries and purchase path
Agent action: map problem, consideration,
decision and retention needs

STRUCTURED HANDOFF

artifact_type: journey grid
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: select one job per content asset

Journey stage mapping · failure and gate

FAILURE MODE

same message at every stage

REVIEW CONTROL

Check journey fit score.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Journey stage mapping • evidence contract

Handoff record: campaign_id • artifact_version • source_ids • owner • confidence • approval_status

Competitor content gap

Decision rule: seek unmet audience question

Competitor content gap · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: approved competitor URLs
Agent action: compare questions answered,
proof and format

STRUCTURED HANDOFF

artifact_type: gap table
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: seek unmet audience question

Competitor content gap · failure and gate

FAILURE MODE

copying competitor wording

REVIEW CONTROL

Check originality and gap count.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Competitor content gap · evidence contract

SOURCE

approved competitor URLs

RESULT

gap table

CHECK

originality and gap count

Search intent classification

Decision rule: match CTA to intent stage

Search intent classification · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: keyword list with page evidence
Agent action: label informational,
comparison and transactional intent

STRUCTURED HANDOFF

artifact_type: intent map
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: match CTA to intent stage

Search intent classification · failure and gate

FAILURE MODE

sales CTA on learning query

REVIEW CONTROL

Check intent-CTA fit.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Search intent classification • illustrative decision chart

CLASSROOM DATA

Illustrative scores only.

Metric: intent-CTA fit

Compare against a pre-agreed release threshold; inspect evidence before approval.

Content requirements schema

Decision rule: reject missing mandatory fields

Content requirements schema · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: persona, objective and channel constraints
Agent action: record length, voice, proof, format, CTA and exclusions

STRUCTURED HANDOFF

artifact_type: content specification
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: reject missing mandatory fields

Content requirements schema · failure and gate

FAILURE MODE

brief lost in handoff

REVIEW CONTROL

Check spec completeness.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Content requirements schema · evidence contract

SOURCE

persona, objective and
channel constraints

RESULT

content specification

CHECK

spec completeness

Handoff record: campaign_id · artifact_version · source_ids · owner · confidence · approval_status

Frequency from response data

INPUT

engagement, unsubscribe
and capacity data

CONTROL

compare marginal value
with fatigue and production
cost

OUTPUT

cadence proposal

Decision rule: reduce frequency when fatigue rises

Frequency from response data · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: engagement, unsubscribe and capacity data
Agent action: compare marginal value with fatigue and production cost

STRUCTURED HANDOFF

artifact_type: cadence proposal
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: reduce frequency when fatigue rises

Frequency from response data · failure and gate

FAILURE MODE

over-posting

REVIEW CONTROL

Check engagement per send.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Frequency from response data · evidence contract

SOURCE

engagement, unsubscribe
and capacity data

RESULT

cadence proposal

CHECK

engagement per send

Handoff record: campaign_id · artifact_version · source_ids · owner · confidence · approval_status

Editorial calendar capacity

INPUT

asset dependencies and
staff capacity

CONTROL

allocate publish slots and
review buffers

OUTPUT

four-week calendar

Decision rule: never schedule before QA sign-off

Editorial calendar capacity · worked artifact

GREENLEAF CAFÉ · CAMPAIGN RECORD

Campaign: Weekday lunch discovery
Audience: Singapore working professionals
Input: asset dependencies and staff capacity
Agent action: allocate publish slots and review buffers

STRUCTURED HANDOFF

artifact_type: four-week calendar
claim_ids: GL-01, GL-02
review_owner: human strategist
accept_if: never schedule before QA sign-off

Editorial calendar capacity · failure and gate

FAILURE MODE

unreviewed slot

REVIEW CONTROL

Check on-time approved rate.
Record source, owner and outcome.
Return to the producing agent when the contract fails.

Editorial calendar capacity · evidence contract
