

Prompts — Lab 10: Campaign 2: Social Media Posts (Demo)

Multi AI Agents Workflow for Content Creation (ChatGPT Edition) · Day 2 · Use Codex

Use: Codex — Codex, in your horizon-studio folder. Paste each prompt as written; change only what the lab tells you to.

Easiest: copy each prompt from <https://tertiarycourses.github.io/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/prompts/chatgpt/#lab-10> (one Copy button per prompt).

PROMPT A — Codex: get the latest kit

Bring this studio up to date with the course kit.
From https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/horizon-studio/download-scripts/serve-site.mjs and https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/scripts/download-approve.mjs, [gate-hook.mjs](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/scripts/gate-hook.mjs), [lib.mjs](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/scripts/lib.mjs), [publish.mjs](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/scripts/publish.mjs) and [submit.mjs](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/scripts/submit.mjs) into the same places here. From https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/scripts/submit.mjs into scripts/. Replace old copies; touch nothing else.
Then add this rule to AGENTS.md if it is missing:
every post links to <http://localhost:8080/> with UTM tags.
Then start my website and tell me in one line that the kit is up to date.

PROMPT B — Codex: the social team

You are the Lead. Plan Week 1 social from [data/social-brief.md](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/data/social-brief.md) and [strategy/calendar.csv](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/strategy/calendar.csv).
Use subagents in parallel, each following its card:
- content-creator: 1 LinkedIn + 1 Facebook post with [linkedin-post](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/data/social/week-01/), [facebook-post](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/data/social/week-01/) and copywriting, one file each in [content/social/week-01/](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/data/social/week-01/), with the frontmatter in [data/publishing-spec.md](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/data/publishing-spec.md). Each post links to my website, <http://localhost:8080/>, with UTM tags.
- creative-designer: one image per post with [\\$imagegen](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/data/social/week-01/) and alt text, from the brief. Save each as a PNG beside its post and fill in the post's image and alt lines, so the image is posted with it.
Then run fact-check and fin-compliance on every post and send each fix back to the right subagent. When a post passes, run [node scripts/submit.mjs](https://raw.githubusercontent.com/tertiarycourses/TGS-2023036153-Multi-AI-Agents-Workflow-for-Content-Creation/main/labs_chatgpt/lab-10-campaign-2-social-week/assets/publisher-kit/scripts/submit.mjs) on it.
Publish nothing.
Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT C — Codex: publish

```
For every Week 1 post approved in  
review/approvals.csv, run node scripts/publish.mjs  
<id> as a dry run and show me each request. Wait for  
me to say "go" before any --live run.
```

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "Which post do you expect to do best, and why?"
- "What did the Lead send back to the writer, and why?"
- "Is anything here not ready to post? Explain in plain English."
